

D3O® SOLID AND MESH SHEETS

RATE-SENSITIVE, SOFT, FLEXIBLE SHOCK ABSORBING SHEETS

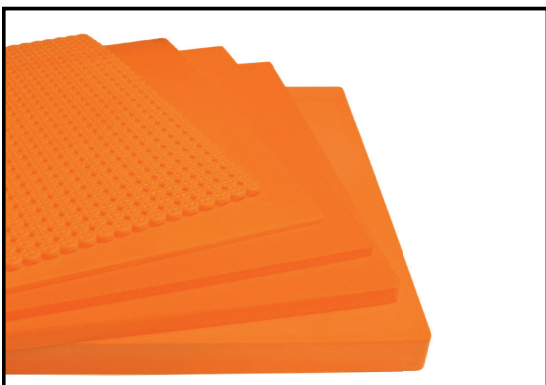

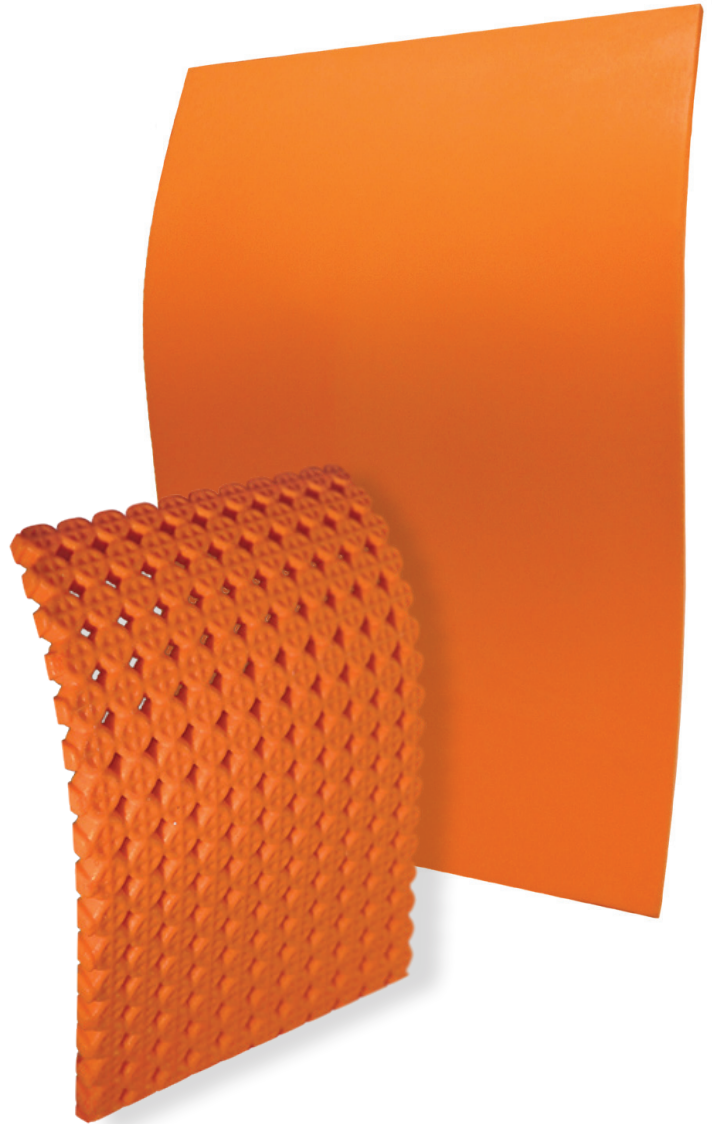

D3O® Set Foam sheets offer high levels of shock absorption. D3O® materials flow freely when at rest, but on impact, lock tightly together to disperse and absorb the energy of the blow, before instantly returning to their soft, flexible state. This reaction is instantaneous and 100% passive. The greater the force of impact, the greater the protection. They are soft, flexible and versatile, making them compatible with a wide range of applications.
